

ROBOCALL – INFORMATION AND GUIDE

Five Area Telephone Cooperative, Inc. is very concerned about the number of suspected illegal and unwanted robocalls calls our customers receive and the potential harmful impact they can cause. Everyday, scammers use the telephone to try and trick people out of money or get access to personal information.

To help you and your family avoid becoming a victim of unwanted and potentially unlawful robocalls, we encourage all customers to read about the FCC's tips and tools to combat robocalls.
